Footnotes

1. Throughout this section, the term 'TVET' also includes other forms of skills development.
2. Projects with SO1 priority have a larger budget allocation to SO1 than to any other Strategic Objective, per the MLS portfolio analysis.
3. Geographical data disaggregation has not been possible for many Somalia projects, and as a result regional output data provided for Somalia is significantly underrepresented.
4. The colours on the map represent the number of SO1 priority projects in each region. However, the key outputs selected highlight notable results achieved by EUTF projects, and do not always correlate with the number of projects present in a given area.
5. The previous infographic stated that the largest semester output was reported in S2 2021 (67,115) rather than S2 2022. However, since then significant outputs were retroactively reported for S2 2022 by the DRR Amhara, DRR Sidama and DRR EDRMC projects in Ethiopia.
