# ACKNOWLEDGMENTS

This report was prepared by Eric Davin, Matthieu Dillais, Justine Rubira, Philibert de Mercey, Dhanya Williams, Bruno Kessler, Garance Dauchy, Cédric Ando and Mathilde Verdeil (Altai Consulting).

We gratefully thank project staff from the implementing partners who took the time to sit with us and comply with our reporting requirements. We are in particular indebted to: ACF, CARE, DCA, iDE UK, IRC, NRC, Oxfam, Plan, SCUK in Ethiopia; GIZ and ADRA in Sudan; GIZ, UNHCR, UNICEF, WPF, FAO, KRCS, RUSI and SAIDC, with Ten Senses & Farm Africa, in Kenya; ADA, Enabel, DRC and IOM in Uganda; Mott MacDonald, DFID, Health Pool Fund II and Ecorys in South Sudan; IOM, Concern Worldwide, IDLO, NRC, UN Habitat, UNHCR, World Vision in Somalia; and IGAD, GIZ, IOM Horn of Africa and Sahan Research at the regional level.

We would also like to thank the EU delegations to Ethiopia, Djibouti, Kenya, Sudan, South Sudan, Somalia and Uganda.

## ALTAI CONSULTING

Altai Consulting provides research, M&E and strategy consulting services to public institutions, governments and private actors in fragile countries and emerging markets.

Altai teams operate in more than 50 countries in Africa, the Middle East and Central Asia. Since its inception 15 years ago, Altai Consulting has developed a strong focus on governance, stabilization and migration related research, monitoring and evaluation.

# EXECUTIVE SUMMARY

## 1.1.EUTF HORN OF AFRICA – INTRODUCTION

The European Union Emergency Trust Fund for stability and addressing root causes of irregular migration and displaced persons in Africa (EUTF for Africa or EUTF) was launched at the Migration Summit in La Valletta on 11 and 12 November 2015. With an initial total budget of approximately €2B and a duration of five years, the EUTF contributes to implement the Valletta Action Plan (VAP). The EUTF is composed of three windows, covering (i) the Sahel and Lake Chad, (ii) North of Africa and (iii) Horn of Africa (HoA).

The EUTF's Horn of Africa window currently represents €1.33B in allocable contributions<sup>1</sup>, of which €846M have currently been committed, €516M have been contracted to 74 projects in 7 countries (there are currently no projects in Eritrea or Tanzania).

Historically and as per its Strategic Orientation Document<sup>2</sup>, the EUTF has focused on four Strategic Objectives (SO) or lines of action, listed below.

**SO1: Greater economic and employment opportunities** (economic development programmes addressing skills gaps, and improving employability through vocational training, and supporting job creation and self-employment opportunities.)

**SO2: Strengthening resilience of communities** and, in particular, the most vulnerable, as well as refugees and other displaced persons.

**SO3: Improved migration management** in countries of origin, transit and destination (addressing drivers of irregular migration, return, readmission and reintegration, international protection, etc.)

**SO4: Improved governance and conflict prevention:** Supporting improvements in governance, in part by promoting conflict prevention, addressing human rights abuses and enforcing the rule of law.

## 1.2.EUTF HoA – THE MONITORING AND LEARNING SYSTEM (MLS)

Altai Consulting was contracted in July 2017 to develop a regional Monitoring and Learning System and an evidence-based approach for programming and implementing interventions in the Horn of Africa region, as well as to inform policy around the themes of the EUTF in the region' by (i) strengthening monitoring and reporting on the overall progress of the EUTF HoA window; and (ii) creating a learning component based on investigations on projects to inform the programme strategy.

Its key functions on the **monitoring** side are to (i) aggregate output and outcome values at the regional level; (ii) visualize and measure progress made; (iii) communicate; and (iv) cross-analyse project data and knowledge generated to refine strategies. On the **learning** side, the MLS aims at (i) understanding the rationale behind the data collected and analysed in quarterly reports, and (ii) identifying best practices and lessons learned across the EUTF HoA portfolio, largely through case studies whose results will be shared, including in the quarterly reports.

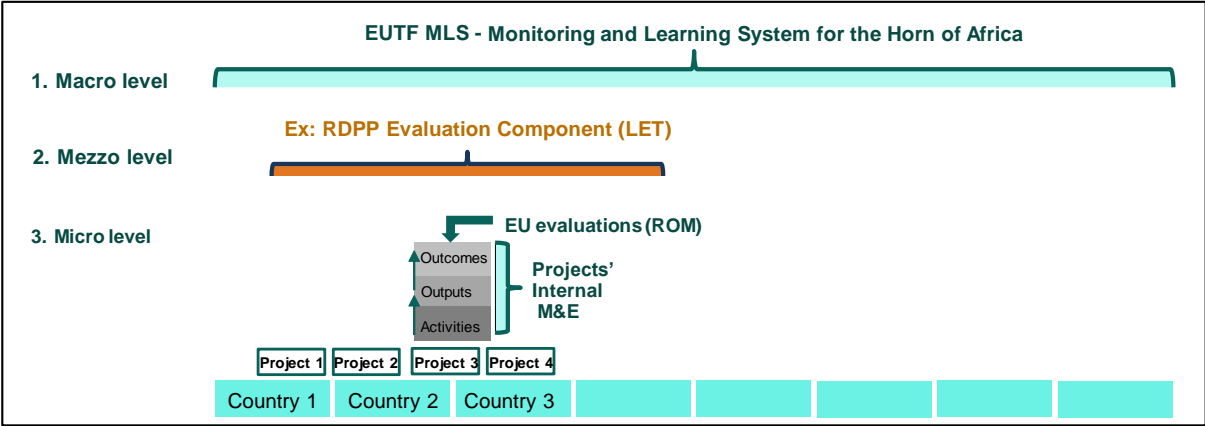

---

<sup>1</sup> These are the contributions made to the EUTF after deduction of administrative costs

<sup>2</sup> EUTF Strategic Orientation Document, 2016, [https://ec.europa.eu/trustfundforafrica/sites/euetfa/files/strategic\\_orientation\\_document-en\\_0.pdf](https://ec.europa.eu/trustfundforafrica/sites/euetfa/files/strategic_orientation_document-en_0.pdf)

As shown in the diagram below, the MLS **does not aim at replacing or duplicating the Monitoring and Evaluation (M&E) systems of each individual project** or other existing mechanisms such as the Results-Oriented Monitoring (ROM), or internal evaluations planned for the EUTF at the regional or project levels. On the contrary, the HoA MLS will use data produced by internal project M&E systems and contribute to improving these systems where necessary.

Figure 1: Overview of the different layers of M&E in the HoA region

### 1.3.METHODOLOGY FOR THE Q1 REPORT

This first quarterly report is largely based on quantitative data obtained from the EU with regards to budgets and the Implementing Partners (IPs) who gave the MLS data feeding into the EUTF common output indicators developed and regularly amended throughout 2017 and 2018.

While this first quarterly report focuses on showing progress so far, future reports will gain in breadth and depth as increasing numbers of IPs and more detailed information are included, and the analysis becomes more complete and more time-bound.

Figure 2: Breakdown of funds and projects included in the Q1 report

advanced enough to have data to share. This report covers 38 of these projects. The projects in inception phase can be found in figure 3 below.

The detailed list of the 43 projects currently being implemented and with output data to report is presented in Table 12 (at the end of this executive summary) with their budget and whether they are in the current report.

<sup>3</sup> See Appendix 1 at the end of this Executive Summary – List of the 41 proxy output indicators as of May 2018.

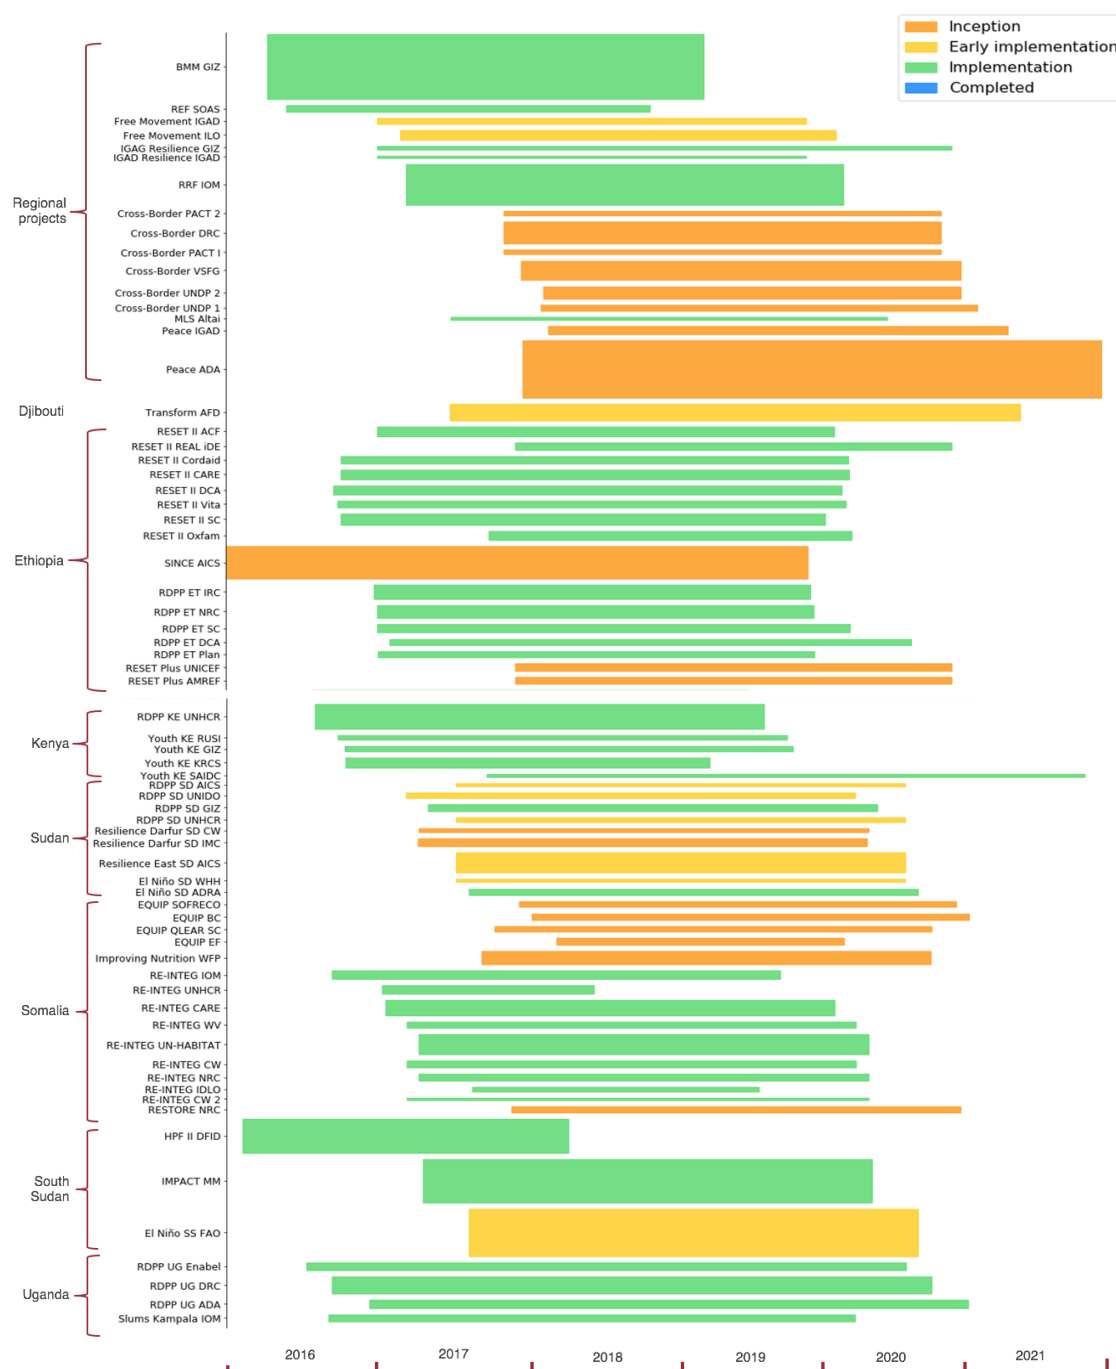

Figure 3 gives an overview of all 74 EUTF HoA contracted projects with their status, timeline and a bar width proportional to each project's EUTF budget. Table 1 and Table 11 (with definitions and levels of aggregation, at the end of this executive summary) are the lists of the 41 EUTF common output indicators.

Table 1: List of EUTF common output indicators

1. Greater economic and employment opportunities	
1.1	Number (No) of jobs created
1.2	No of MSMEs created or supported
1.3	No of people assisted to develop economic income-generating activities
1.4	No of people benefiting from professional trainings (TVET) and/or skills development
1.5	No of job placements facilitated and/or supported
1.6	No of industrial parks and business infrastructure created, expanded or improved
1.7	Financial volume of new funding instruments for scholarships or self-employment
1.7b	Financial volume granted to individual recipients
2. Strengthening resilience	
2.1	No of local development plans directly supported
2.1b	No of social infrastructure built or rehabilitated
2.2	No of people receiving a basic social service
2.3	No of people receiving nutrition assistance
2.4	No of people receiving food security related assistance
2.5	No of local governments and/or communities adopting local disaster risk reduction strategies
2.6	Hectares of land benefitting from improved agricultural management
2.7	No of people reached by information on resilience-building practices and basic rights
2.8	No of local authorities' staff and basic service providers supported to strengthen service delivery
2.9	No of people having improved access to basic services
3. Improved migration management	
3.1	No of projects by diaspora members
3.2	No of migrants in transit, victims of human trafficking, IDPs and refugees protected or assisted
3.3	No of (potential) migrants reached by information campaigns on risks of irregular migration
3.4	No of voluntary returns or humanitarian repatriation supported
3.5	No of returning migrants benefiting from reintegration assistance
3.6	No of institutions and non-state actors strengthened on protection and migration management
3.7	No of individuals trained on migration management
3.8	No of refugees & forcibly displaced persons receiving legal assistance to support their integration
3.9	No of early warning systems on migration flows created
3.10	No of people benefitting from legal migration and mobility programmes
3.11	No of activities/events raising awareness and sensitivity of public on migration
4. Improved governance and conflict prevention	
4.1	No of border stations supported to strengthen border control
4.2	No of staff from governmental institutions, security forces and relevant non-state actors trained on security, border management, CVE, conflict prevention, protection of civilians & human rights
4.2b	No of institutions and non-state actors benefitting from capacity building and operational support on security, border management, CVE, conflict prevention, protection of civilians & human rights
4.3	No of people participating in conflict prevention and peace building activities
4.4	No of victims of trafficking, assisted or referred to assistance services
4.5	No of cross-border cooperation initiatives created / launched or supported
4.6	No of strategies, policies and plans developed and / or directly supported
4.7	No of refugees benefiting from an Out-of-Camp policy
4.8	No of national/regional/local networks and dialogues on migration related issues newly established or functionally enhanced
5. Cross-Cutting	
5.1	No of multi-stakeholder groups and learning mechanisms formed and regularly gathering
5.2	No of planning, monitoring, learning, data-collection and analysis tools set up, implemented and / or strengthened
5.3	No of field studies, surveys and other research conducted

Figure 3: All signed EUTF HoA contracts by budget and implementation status (includes 74 projects in inception, early implementation, output-generating implementation and completed), May 2018<sup>4</sup>

<sup>4</sup> Does not represent projects below €1M. Includes: 41 projects in implementation with data to report of the 43 mentioned above (the 2 additional projects are not represented as they are below €1M, including "Economic Stabilisation Ecorys" which is completed); 19 of the 22 projects in inception (of the 3 other projects, 2 are below €1M and one (RESET PLUS SC) the MLS had no budget information for); and 9 projects in early implementation (no data yet to report). Shortened names are used for the sake of simplicity. Full titles can be found in Appendix, table 12. Budgets are solely EUTF contribution. The length of the bars represents the estimated lifespan of the project and the height/width, the EUTF budget.

## 1.4.EUTF HoA – KEY FACTS AND FIGURES

Table 2: EUTF HoA – Key facts and figures

Historic and financial data	
Total allocable contributions	€1.33B
Total committed funds	€846M
Total contracted funds	€516M
First programmes approved	December 2015
Average length of projects	36 months
Geography and contracts	
No of countries	9 countries (7 with projects)
No of programmes approved to date	50 <sup>5</sup>
No of projects contracted to date	74
No of projects with data to report	43
No of projects in the Q1 report	38
No of IPs contracted to date	48 (29 in Q1 report)
Indicators	
Indicators reported on in Q1	33 (of 41 existing)

Of the €846M in funds committed by the EUTF HoA window, €516M have been contracted on both regional projects and projects set in 7 of the region's 9 countries:

- Regional projects (€166.4M)
- Ethiopia (€101.5M)
- South Sudan (€75.0M)
- Sudan (€59.4M)
- Somalia (€51.1M)
- Kenya (€28.4M)
- Uganda (€24.1M)
- Djibouti (€10.0M)

Overall, the two top strategic objectives (SO) in terms of funds allocated are SO2 'Strengthening resilience' with 38% of the contracted funds, followed by SO1 'Greater economic and employment opportunities' with 29%. SO4 'Improved governance' is third with 18% and 'Improved migration management' (SO3) stands at 12% of the contracted funds.

Contracts have been signed with 48 IPs, including 29 in this report, the largest (in total funds contracted) of which is *Deutsche Gesellschaft für Internationale Zusammenarbeit* (GIZ), with €49M overall, largely due to the Better Migration Management (BMM) programme (€40M), followed by the International Organization for Migration (IOM) with €34.3M overall and Mott MacDonald which has close to €26M for IMPACT in South Sudan.

Figure 4: Funds contracted by Strategic Objective (SO)

Figure 5: Funds contracted by type of Implementing Partner (IP)

<sup>5</sup> In addition, the EUTF HoA budget is funding two cross-window actions (TCF and Protection along the central Mediterranean route).

Data gathered from the 38 projects in Q1 and mapped to the 41 proxy output indicators give the following results in terms of targets and numbers achieved so far:

Table 3: Targets and results achieved so far by proxy output indicators, March 2018<sup>6</sup>

Indicator	Target	Actual	% Achieved
1.1 Number (No) of jobs created	109,579	5,677	5%
1.2 No of MSMEs created or supported	16,238	669	4%
1.3 No of people assisted to develop economic income-generating activities	114,237	23,451	21%
1.4 No of people benefiting from professional trainings (TVET) and/or skills development	57,879	21,587	37%
1.5 No of job placements facilitated and/or supported	30,844	28,460	92%
1.6 No of industrial parks and business infrastructure created, expanded or improved	5	3	60%
2.1 bis No of social infrastructure built or rehabilitated	688	117	17%
2.2 No of people receiving a basic social service	1,986,436	1,717,595	86%
2.3 No of people receiving nutrition assistance	185,157	40,380	22%
2.4 No of people receiving food security related assistance	325,420	123,753	38%
2.5 No of local gvts and/or communities that adopt local disaster risk reduction strategies	81	13	16%
2.6 Hectares of land benefitting from improved agricultural management	22,368	3,039	14%
2.7 No of people reached by information on resilience-building practices and basic rights	442,154	85,983	19%
2.8 No of staff (local authorities & basic service providers) trained to improve service delivery	16,421	5,202	32%
2.9 No of people having improved access to basic services	3,064,288	2,462,917	80%
3.2 No of migrants in transit, VoT, children in mobility, IDPs and refugees protected / assisted	19,990	46,319	232%
3.3 No of (potential) migrants reached by information campaign on risks of irregular migration	55,833	7,565	14%
3.4 No of voluntary returns or humanitarian repatriation supported	27,440	5,055	18%
3.5 No of returning migrants benefiting from reintegration assistance	15,327	20,644	135%
3.6 No of state & non-state actors strengthened on protection and migration management	128	75	59%
3.7 No of individuals trained on migration management	3,699	1,861	50%
3.8 No of refugees and forcibly displaced persons receiving legal assistance for their integration	755	100	13%
3.11 No of events to raise awareness and sensitivity of public on all aspects of migration	12	6	50%
4.1 No of border stations supported to strengthen border control	120	54	45%
4.2 No of staff from state and relevant non-state actors trained on security, border management, CVE, conflict prevention, protection of civilian populations and human rights	25,044	7,375	29%
4.2b No of state and non-state actors supported on security, border management, CVE, conflict prevention, protection of civilian populations and human rights	124	125	101%
4.3 No of people participating in conflict prevention and peace building activities	35,157	12,840	37%
4.4 No of victims of trafficking, assisted or referred to assistance services	42	0	0%
4.5 No of cross-border cooperation initiatives created / launched or supported	10	4	40%
4.6 No of strategies, policies and plans developed and / or directly supported	206	87	42%
5.1 No of multi-stakeholder groups and learning mechanisms formed and regularly gathering	1,778	1,325	75%
5.2 No of planning, monitoring, learning, data collection and analysis tools implemented / strengthened	401	114	28%
5.3 No of field studies, surveys and other research conducted	73	26	36%

Across countries, programmes are aligned to different degrees with the EUTF common output indicators with some programmes being of a broader nature and covering several indicators along more than one strategic objective (RE-INTEG which, in addition to being broad, has 8 projects covered in this report, some of the RDPPs and RESET II) and others being more focused in nature and covering fewer indicators as well as fewer strategic objectives (HPFII which focuses on health, IMPACT on education etc.)

<sup>6</sup> Indicators not represented have neither targets nor data so far. In the rare cases when no targets were provided, achieved value was considered the target.

## 1.5.EUTF HoA –GEOGRAPHICALLY

Overall, the two top strategic objectives (SOs) in terms of funds allocated are **SO2 ‘Strengthening resilience’** with 38% of the contracted funds, followed by **SO1 ‘Greater economic and employment opportunities’** with 29%. **SO4 ‘Improved governance and conflict prevention’** is third with 18%, followed lastly by **SO3 ‘Improved migration management’** at 12%.

Figure 6: Breakdown of contracted budget by country and strategic objective, May 2018  
(the darker the country map the more funds spent in the country)

### 1.5.1. REGIONAL PROJECTS

A total of 6 regional programmes and projects are included in this report, the most significant being the Better Migration Management (BMM) programme, the Intergovernmental Authority on Development (IGAD) resilience programme (divided into 2 contracts, one with IGAD and the

Table 4: Regional programmes – Key indicators  
(results achieved so far)

3.2 No of migrants in transit, victims of human trafficking, children in the mobility, IDPs and refugees protected or assisted.	<b>9,349</b>
---	--------------

other with GIZ) and the Regional Reintegration Facility<sup>7</sup>.

The BMM aims at improving migration management in the Horn of Africa, with a specific attention to trafficking and smuggling of migrants along migratory routes. The '*Facility on Sustainable and Dignified Return and Reintegration in support of the Khartoum Process*' or Regional Reintegration Facility (RRF) is implemented by IOM in Djibouti, Ethiopia, Sudan and Somalia and aims at supporting the development of sustainable return and reintegration policies.

Finally, the IGAD Resilience program is one of three programs funded by the EUTF working with the HoA-based regional Intergovernmental Authority for Development (IGAD). Its objective is to "strengthen IGAD's capacity for coordinating and facilitating the implementation of IDDRSI<sup>8</sup>. All these programs contribute largely to SO3 'Improved migration management' and to a lesser extent to SO4 'Improved governance and conflict prevention'.

### 1.5.2. ETHIOPIA

Ethiopia's migration profile is shaped by its status as host to one of the largest refugee populations in Africa and by its high emigration rate, usually for economic reasons and often through irregular channels. The EUTF has sought to address both dynamics as part of its implementation strategy in the country, with most of its disbursed funding for Ethiopia directed towards SO 1 'Greater economic and employment opportunities' and SO 2 'Strengthening resilience of communities'. This will be achieved through two main programs: the 'Regional Development and Protection Programme' (RDPP) and its 5 projects and the 'Resilience Building and Creation of Economic Opportunities in Ethiopia II' (RESET II) and its 8 projects. RDPP and RESET II both strongly focus on access to basic services and income generation although RDPP focuses more on areas with refugees (but targeting both refugees and host communities) while RESET II addresses the more vulnerable Ethiopian population.

Table 5: Ethiopia – Key indicators (results achieved so far)

2.9 No of people having improved access to basic services	<b>1,009,613<sup>9</sup></b>
2.4 No of people receiving food security related assistance	<b>113,837</b>
2.7 No of people reached by information on resilience-building practices and basic rights	<b>40,202</b>

Figure 7: No of people receiving a basic social service (Indicator 2.2), disaggregated by type of service

<sup>7</sup> The other two are the MLS and the REF, which are both quite specific and cross-cutting in nature, thus analysed separately.

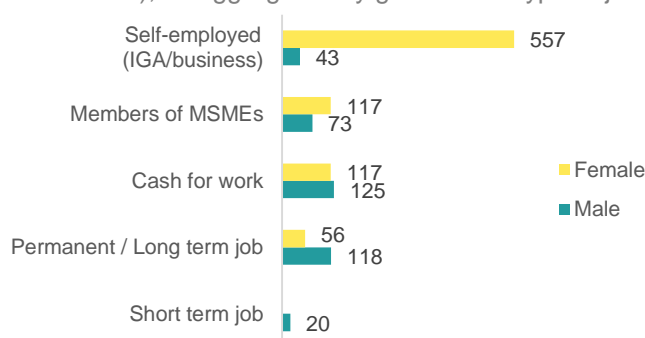

<sup>8</sup> IDDRSI: IGAD Drought Disaster Resilience and Sustainability Initiative

<sup>9</sup> Access to services is measured by the number of people who potentially benefit from an improved service, such as the catchment population of a rehabilitated health facility or of a constructed water point. It does not necessarily mean that these people actively use the improved service to which they have access.

2.2 No of people receiving a basic social service	<b>36,183</b>
1.3 No of people assisted to develop income generating activities (IGAs)	<b>5,605</b>

Women have thus far benefitted significantly more than men from job creation, mainly due to the emphasis that both programmes place on women for income-generating activities (IGA) in an effort to support the most vulnerable<sup>10</sup>. However, far more men have benefited from the small number of formal, long-term employment opportunities created so far than women.

Figure 8: No of jobs created by EUTF projects in Ethiopia (Indicator 1.1), disaggregated by gender and type of job

### 1.5.3. SOUTH SUDAN

The situation in South Sudan and neighbouring countries has quickly escalated into a full-blown humanitarian emergency. Most of the refugees are women and children (those under 18 years of age account for 63% of South Sudanese refugees)<sup>11</sup>, many of whom flee across the border alone. Inside South Sudan, nearly two million people are displaced internally (1.8 million IDPs according to the UNHCR in February 2018<sup>12</sup>), while outside the country there are now over two million South Sudanese refugees, mainly in Ethiopia, Sudan, and Uganda.

Table 6: South Sudan – Key indicators (results achieved so far)

2.2 No of people receiving a basic social service	<b>1,588,887</b>
2.9 No of people having improved access to basic services <sup>13</sup>	<b>1,402,800</b>
1.5 No of job placements facilitated and/or supported	<b>28,056</b>

The EUTF's funding in South Sudan focuses on strengthening the resilience of the most vulnerable people, many of whom find themselves suffering from the conflict situation as well as the effects of climate change, the combination of which has resulted in an alarming food security crisis.

The EUTF is supporting key sectors like health, by contributing to the large Health Pooled Fund II (HPFII) programme which focuses on improving maternal and child health; education by financing incentives for

<sup>10</sup> IGAs are only considered a 'job created' if and when the beneficiary actually generates incomes from the activity.

<sup>11</sup> South Sudan Situation – Regional Update, UNHCR, February 2018

<sup>12</sup> Ibid.

<sup>13</sup> 2.9 'Access to services' is measured by the number of people who potentially benefit from an improved service, such as the catchment population of a rehabilitated health facility. It does not necessarily mean that these people actively use the improved service to which they have access. In this case, 2.2 refers to mainly services offered directly by HPFII while 2.9 refers to children with improved access to education where teachers received an incentive from IMPACT, at a ratio of 50 students to 1 teacher.

2.8 No of staff from local authorities and basic service providers benefitting from capacity building for strengthening services delivery	735	teachers to return to their schools through IMPACT and; food security by finding ways to improve the livelihoods of pastoralists, among other projects.
4.6 No of strategies, policies and plans developed and / or directly supported	51	The EUTF's funding has allowed HPFII to <i>inter alia</i> provide over 740,000 children under age 5 with medical assistance.

1.4 million children have increased access to education thanks to IMPACT's financial support to school teachers<sup>14</sup>.

#### 1.5.4. SUDAN

Sudan is a country of origin, destination and transit, at the very centre of the migration routes linking the Horn and East Africa with Libya and Egypt. It accounts for more than 3.3 million IDPs<sup>15</sup> and more than 650,000 Sudanese<sup>16</sup> were international migrants and refugees at the end of 2016. Sudan also has a long history of open door policy to refugees and hosts more than 960,000 refugees<sup>17</sup>, with 763,000 South Sudanese<sup>18</sup> and 100,000 Eritreans as well as 12,000 Ethiopians and 7,000 Syrians<sup>19</sup>. These numbers, however, vary greatly during the year and depending on the sources as many registered refugees and asylum seekers move onwards and stay for very little time in the country.

In Sudan, the EUTF priorities are threefold: (i) to support the efforts of the government to improve the basic services (health and education) to migrant and host communities and to improve economic opportunities; (ii) to improve market opportunities and agricultural resilience to climate-related disasters in the country; (iii) to create alternatives to first and secondary movement and improve the protection of the Sudanese and migrant population in the country; also to make the migratory routes that cross the country safer through regional projects.

Most of the 14 contracted projects in Sudan are currently in the inception or early implementation phase. The projects included in this report support the population mainly through Technical and Vocational Education and Training (TVET) (RDPP GIZ) and agricultural-related support and trainings (El Niño - Adventist Development and Relief Agency / ADRA). Women are represented more than men as beneficiaries of IGA support (66%) because they are often in charge of the household, making them ideal targets for IGAs. In the White Nile state, ADRA's activities reach 33% of Sudanese returnees without specifically targeting them given that returnees are well integrated into local hosting communities.

<sup>14</sup> Numbers for HPFII are proportional to the EUTF's contribution to the programme, estimated by DFID at 11.4%, May 2018.

<sup>15</sup> IOM World Migration report, 2018

<sup>16</sup> Ibid.

<sup>17</sup> ECHO Factsheet, October 2017, since UNHCR added 350,000 South Sudanese to the number of refugees we can expect this number to have gone up.

<sup>18</sup> UNHCR, South Sudan Population Dashboard, April 2018 – includes 350,000 South Sudanese who arrived in Sudan in 2011-2013.

<sup>19</sup> UNHCR, Population statistics, 2016

Table 7: Sudan – Key indicators  
(results achieved so far)

1.3 No of people assisted to develop IGAs	594
2.4 No of people receiving food security assistance	363
4.3 No of people participating in conflict prevention and peace building activities	60
1.4 No of people benefiting from professional trainings (TVET) and/or skills development	50
2.8 No of staff from local authorities and basic service providers benefitting from capacity building for strengthening services delivery	46

Figure 9: Number of people receiving food security related assistance (Indicator 2.4) in Sudan, by type of beneficiary

### 1.5.5. SOMALIA

Somalia's unstable political context combined with environmental challenges such as droughts, famine and desertification have led many to flee to neighbouring countries and displaced millions within Somalia. At the end of 2017, UNHCR reported around 1.5 million internally displaced individuals<sup>20</sup> although other estimates suggest this figure may be well above 2 million<sup>21,22</sup>. Main migration flows taken place across the Gulf of Aden and along the borders with Kenya and Ethiopia.

The EUTF's main efforts in the country are aimed at providing livelihood opportunities, ensuring basic service provision and guaranteeing the safe and dignified return and reintegration of Somalis into stable areas of the country. Around 110,000 Somali refugees have been repatriated since 2014<sup>23</sup>, around 70% of whom came back from Kenya.

Table 8: Somalia / RE-INTEG – Key indicators  
(results achieved so far)

3.2 No of migrants in transit, victims of human trafficking, children in the mobility, IDPs and refugees protected or assisted.	36,970
2.2 No of people receiving a basic social service	25,314
3.5 No of returning migrants benefiting from reintegration assistance	20,287
2.7 No of people reached by information campaigns on resilience-building practices and basic rights	6,906

*'RE-INTEG: Enhancing Somalia's responsiveness to the management and reintegration of mixed migration flows'* is one of the largest EUTF-funded programmes, with a budget of €50M and 9 projects, 8 of which are featured in this report.

RE-INTEG aims at assisting the country in ensuring a durable integration of refugees and IDPs and in anchoring populations within Somalia.

**IGA** - Over 3,000 beneficiaries have been supported in IGA by RE-INTEG. Over half were female and almost 1,000 female returnees.

<sup>20</sup> UNCHR 2018 Planning Summary, November 2017

<sup>21</sup> UNHCR, January 2018

<sup>22</sup> IOM Displacement Tracking Matrix, May 2018

<sup>23</sup> Repatriation Update, UNHCR, March 2018

3.4 No of voluntary returns or humanitarian repatriation supported

3,955

**Basic services** - Some 25,314 beneficiaries were provided a basic service: 14,590 were returnees and 12,775 were women.

### 1.5.6. KENYA

Kenya currently hosts about 486,500<sup>24</sup> refugees and asylum seekers, mostly from South Sudan and Somalia. Most refugees and asylum seekers live in camps, in Dadaab and Kakuma and Kalobeyei (185,000 people, mostly South Sudanese refugees<sup>25</sup>). In the last months, the north of the country saw also a large influx of Ethiopians fleeing violence in Oromo. In parallel, Kenya faces issues such as inequality, unemployment which, along with its regional situation, exposes the country to the risk of its youth – especially along the coast – being attracted by extremist groups often linked to illegal migration and trafficking.

The EUTF priorities in the country are: (i) to provide opportunities and protection for the large number of South Sudanese and Somalis in situations of protracted displacement in the country and for the host communities; (ii) to accompany the government in its efforts to prevent and counter violent extremism; (iii) to promote social cohesion and youth employment, thus covering SO1, SO2 and SO4 fairly evenly.

Table 9: Kenya – Key indicators  
(results achieved so far)

2.2 No of people receiving a basic social service	62,034
2.7 No of people reached by information campaigns on resilience-building practices and basic rights	38,557
1.4 No of people benefiting from professional trainings (TVET) and/or skills development	19,016
2.4 No of people receiving food security related assistance	8,828
1.3 No of people assisted to develop economic income-generating activities	2,177

In Kenya, 62,034 people have received at least one basic service (Indicator 2.2) as a result of EUTF-funded activities.

Of these, 96% are refugees, and all have been reached by awareness-raising campaigns on resilience building activities (Indicator 2.7).

This represents the population of the Kalobeyei integrated settlement where the RDPP Kenya implements its activities.

Additionally, 8,828 people - of whom 77% are women - have been supported through food security assistance activities (Indicator 2.4).

Of the 10,718 beneficiaries participating in conflict prevention activities (Indicator 4.3) in Kenya, 10,489 are youth.

On the coast, the Youth programme activities target specifically youth – from the host community mainly – at risk of being recruited by violent extremist groups. Most (90%) of the beneficiaries have taken part in some type of awareness-raising exercise held by one of the four EUTF-funded projects.

Figure 10: No of people participating in conflict prevention and peace-building activities (Indicator 4.3) by type of activity

<sup>24</sup> UNHCR data for end January 2018

<sup>25</sup> UNHCR Kenya, Kalobeyei integrated settlement and Kakuma refugee camp, January 2018

### 1.5.7. UGANDA

Uganda has a long-standing tradition for hosting asylum seekers from all over East and Central Africa. This tradition along with its geographic localisation are among the reasons for the impressive 1.46 million refugee population, most of whom are from South Sudan or the Democratic Republic of the Congo<sup>26</sup>. Of these, almost 50% are under 15 years old. The situation in the northern part of Uganda is of particular concern given the dramatic increase in refugees witnessed in recent years and the related inter-community conflicts which have arisen.

Also worth mentioning is Uganda's strong population growth rate (around 3.3% in 2016<sup>27</sup>, one of the highest in the world) due to which the country's population is expected to reach an impressive 130 million in 2050, from the current 42. This trend obviously poses new challenges for the government and society, as well as representing a potential source of conflict for land and resources.

The report contains data on four main projects in Uganda: 3 RDPP projects implemented by the Austrian Development Agency (focusing on water), Enabel-Belgian Development Agency (education) and the Danish Refugee Council (livelihoods and conflict resolution) and the '*Strengthening social cohesion and stability of slums populations in Kampala*' implemented by IOM.

Table 10: Uganda – Key indicators  
(results achieved so far)

2.3 No of people receiving nutrition assistance	<b>27,462</b>
1.3 No of people assisted to develop economic income-generating activities	<b>11,447</b>
4.2 No of staff from state and relevant non-state actors trained on security, border management, CVE, conflict prevention, protection of civilian populations and human rights trained	<b>6,046</b>
2.2 No of people receiving a basic social service	<b>5,177</b>
1.1 No of jobs created	<b>1,918</b>

A total of 1,918 jobs have been created by the Ugandan EUTF projects, including 1,344 for female beneficiaries.

The jobs are divided among those developing self-employment following IGA support, people employed in MSMEs who received funding from the program, cash for work activities and short-term jobs<sup>28</sup>.

Some 949 beneficiaries have completed professional trainings (TVET) and/or skills development trainings (and many more are currently enrolled).

6,046 staff from governmental institutions, internal security forces and relevant non-state actors have been trained on *inter alia* conflict prevention (5,683), protection of civilians and other relevant topics. (Indicator 4.2).

### 1.5.8. DJIBOUTI

Djibouti's unique migration profile is above all shaped by its location as a transit point from the Horn of Africa to the Arabian Peninsula. Its role as a gateway to the Gulf of Aden has grown exponentially over the past decade.

To support the effective management of this increasingly important migratory route, the EUTF has allocated funding for Djibouti within the scope of regional programmes designed to improve migration management and facilitate voluntary returns and reintegration, such as BMM and the RRF.

<sup>26</sup> Uganda 2018 Planning Summary, UNHCR, November 2017

<sup>27</sup> World Bank, 2016

The EUTF has also identified “structural unemployment” as a potential risk for fostering “internal tensions”, and addressing this is a priority action for the Trust Fund in Djibouti. To that end, the EUTF has invested in a project led by the *Agence Française de Développement* to improve the skills and employability of youths for service in the port and transport sectors (the project has no data to report yet at this stage).

## 1.6.EUTF HoA – BY STRATEGIC PRIORITY

### 1.6.1. GREATER ECONOMIC AND EMPLOYMENT OPPORTUNITIES

Strategic Objective 1 is the second largest area of funding and is covered by 8 main EUTF common indicators. The paragraphs below will delve deeper in some of the more striking results for selected indicators.

#### 1.6.1.1. Indicator 1.1 – No of jobs created

Figure 11: Number of jobs created and/or supported (Indicator 1.1), disaggregated by type of job<sup>29</sup>

Overall, the EUTF funded projects in the region have contributed to the creation of 5,661 jobs.

Women comprise 70% of the jobs created, mostly in self-employed positions because of projects' emphasis on targeting women (often the heads of the most vulnerable households) for IGAs.

Host communities are more highly represented in this indicator (3,288 out of the 5,661 jobs created) since the development of an IGA is often linked to the ownership of a house, land and connections to the market.

The RDPP Kenya project alone has supported the creation of 1,550 self-employed positions, in particular by certifying and supporting producer groups on domestic energy (charcoal production).

#### 1.6.1.2. Indicator 1.4 – No of people benefiting from professional training (TVET) and/or skills development

In the HoA region, 21,587 people have been supported through activities related to TVET and/or skills development. Once again, a strong majority of the beneficiaries are women (almost 60%), who are targeted as the most vulnerable. More than 19,422 of the people trained and supported in skills development are in Kenya.

<sup>29</sup> IGA assistance is covered in Indicator 1.3. However, when a durable / sustainable self-employment is created thanks to this IGA support, it is added in Indicator 1.1 as a "job created".

## 1.6.2. STRENGTHENING RESILIENCE

SO2 is the largest area of funding for the EUTF with €196M so far. This is largely due to projects such as RESET II in Ethiopia, IMPACT and HPFII in South Sudan and some of the work done by RE-INTEG and the RDPP projects.

### 1.6.2.1. Indicator 2.1b – No of social infrastructure built or rehabilitated

A total of 117 social infrastructures – mostly water and education related – have been built or rehabilitated by the different projects covered in this report. Most of these infrastructures are in Ethiopia and Somalia, where RDPP Ethiopia, RESET II, and RE-INTEG built or rehabilitated a total of 105 facilities.

### 1.6.2.2. Indicator 2.2 – No of people receiving a basic social service

Over 1.7 million beneficiaries have been provided with a basic social service in the HoA. This figure is strongly driven by the HPFII programme implemented by DFID in South Sudan. HPFII provides increased access to quality health services, targeting in particular children, pregnant women and other vulnerable groups. Since the beginning of its implementation<sup>30</sup>, EUTF funding (which represents around 11.4% of total HPFII funding) has helped it assist over 740,000 children under age 5 and over 800,000 individuals age 5 and older with curative and preventive consultations, in addition to some 30,000 women provided with family planning tools and assisted with antenatal care<sup>31</sup>.

## 1.6.3. IMPROVING MIGRATION MANAGEMENT

SO3 receives about €60M overall, mostly through regional programmes such as the BMM and RRF but also through projects implemented in Somalia (largely RE-INTEG) and Uganda.

### 1.6.3.1. Indicator 3.2 – No of migrants in transit, victims of human trafficking, children in mobility, IDPs and refugees protected and/or assisted

A total of 46,319 migrants in transit, victims of human trafficking, children in the mobility, IDPs and refugees have been protected or assisted with EUTF funding so far.

Three programs have contributed to this figure: the two regional BMM and RRF as well as RE-INTEG. IOM alone provided assistance upon arrival to 22,456 males and 14,514 females through RE-INTEG, and protected an additional 1,760 male and 249 female migrants in transit through the RRF. BMM allowed for the protection of 201 young migrants in transit (121 males and 80 females) and provided sanitary assistance to 5,960 males (including 799 youth) and 1,179 females (including 345 youth).

---

<sup>30</sup> The figures for HPF II refer to the period April 2016 – December 2017

<sup>31</sup> The figures are calculated as a % of EUTF's contribution to the overall budget of the Programme, estimated at 11.4%

### 1.6.3.2. Indicator 3.7 – Number of individuals trained on migration management

Figure 12: No of individuals trained on migration management (Indicator 3.7), by actor and gender

EUTF-funded projects have trained 1,861 individuals on different topics related to the management of borders and flows of migrants.

92% of the trainings have been implemented by regional projects, mostly by BMM.

Staff from national civilian institutions compose the bulk (54%) of those trained.

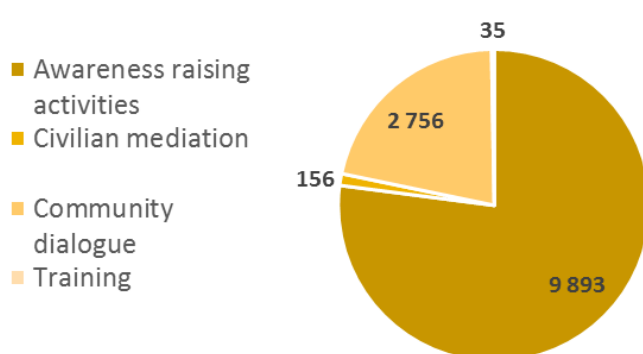

Service providers and NGOs/CSOs are also a large part of the actors trained under this indicator because they often act as first responders before referring migrants to national institutions.

### 1.6.4. IMPROVING GOVERNANCE AND CONFLICT PREVENTION

SO 4 is addressed largely through regional programmes but also stands out in Kenya with the Youth and Countering Violent Extremism (CVE) projects which deal with conflict prevention.

#### 1.6.4.1. Indicator 4.3 – Number of people participating in conflict prevention and peace-building activities

Figure 13: Indicator 4.3 (number of people participating in conflict prevention and peace building activities), by type of activity

In order to improve governance and to counter violent extremism, projects in Somalia, Uganda and Kenya (the three countries account for 100% of the activities referencing this indicator) have been implementing a variety of peace-building activities. Although the activities can take many forms, most of them can be classified as awareness raising activities (77%) and community dialogue (21%) along with, to a lesser extent, civilian mediation and trainings.

Most of the beneficiaries of these activities are members of the host community. In these countries, the identified risk is that the local youth, who account for 10,489 of the total 12,780 beneficiaries of EUTF 4.3 could fall prey to armed and extremist groups among other issues for lack of economic and employment opportunities. Of all the beneficiaries, 10,718 are reached by activities of the Youth programme on the coast of Kenya, which targets at-risk and vulnerable youth.

Figure 14: Indicator 4.3 (Number of people participating in conflict prevention and peace-building activities, by type of beneficiary)

## EUTF HoA – CONCLUSIONS AND PERSPECTIVES

This first quarterly monitoring report offers a comprehensive picture of the activities funded by the EUTF in the Horn of Africa after two years of implementation. In this region, one of the most volatile in the world, the EUTF has succeeded thus far in committing €846M and in contracting out €516M over 74 projects, among which 43 have started generating outputs, while working in full cooperation and coordination with the region's governments and institutions.

**Alignment with strategic objectives:** Although it takes time for projects to be identified and launched in such a complex operational environment, this report shows that it is already possible to highlight tangible results for the Trust Fund, and that these results are aligned with the EUTF's Strategic Objectives and priorities as expressed by the Strategic Board when the initial set of projects was designed. In particular, the analysis in the report illustrates how the portfolio:

- Combines **short-term** (cash for work, border posts, protection, reinsertion) and **long-term** approaches (resilience, improved governance, institution building, human rights, etc.);
- Focuses on **both host communities and the most vulnerable** people who may be likely to migrate, as well as those who have already migrated, be they IDPs, refugees, migrants or even returnees;
- Addresses issues affecting the **youngest** population groups via health or education initiatives, the youth most at risk of migrating and / or turning to extremism;
- Promotes and develops sustainable **economic opportunities and resilience-building** practices to give beneficiaries the chance to build a better future in their country rather than risking the dangers of irregular migration;
- **Builds the structural capacities of local governments** and institutional partners to develop long-term solutions that will be handed over to local authorities.

**Major outputs already delivered:** Even though many projects are still in their inception, striking numbers already stand out: 1,588,887 women, men and children under five have received at least one medical consultation in South Sudan; over 46,000 migrants in transit, victims of human trafficking, children in mobility, IDPs and refugees have already been assisted or protected; over 20,000 beneficiaries, of whom close to 60% are women, have benefited from professional training and / or skills development; nearly 2,000 individuals have been trained on migration management and close to 13,000 beneficiaries have been involved in conflict prevention and peace building activities; institution building has begun with local governments and regional organizations; and legal frameworks are being put in place.

**A complex combination of regional solutions and country-based approaches:** EUTF funding was initially mobilised around regional programmes (accounting for 32% of the funds contracted so far), highlighting the importance of bringing regional solutions to a regional problem. In addition to this regional approach, however, the analysis of the EUTF HoA portfolio shows us how the response was further crafted around the specific challenges and needs of the different target countries. This first quarterly report was an opportunity to define the lay of land. This first image will progressively be developed to highlight the geographic and structural focuses of EUTF projects and illustrate the breadth of the spectrum covered.

**Perspectives in terms of regional monitoring:** This first overview of the regional portfolio and its initial achievements leave many questions open, which will progressively be addressed through the collection of more data and the integration of other layers of information.

- **Geographic targeting:** Do the EUTF projects cover the most significant crises, or are there specific vulnerable areas left unaddressed after two years of programming?
- **Strategic targeting:** Are the different priorities expressed in the initial Strategic Orientation document and refined by the different strategic board meetings adequately reflected by the portfolio? Are some parts of the theory of change underserved?
- **Financial distribution:** How is the funding allocated per geographic area, activity and beneficiary type? What would be the cost of upscaling specific activities?

- **Sustainability:** How do we compare outputs of activities focusing on structural developments (public services systems and infrastructure) with shorter-term support targeting larger numbers of beneficiaries for a shorter period of time?

Answering these questions will involve the integration of more complex layers of information that go beyond outputs, to better classify and categorise each project's activities (financial, geographic, duration). The MLS will aim to progressively gather this additional information once the initial data pipeline is connected with all Implementing Partners in the HoA region.

**Perspectives for the MLS:** Over the next few months, the MLS team will continue to integrate recently contracted projects and additional outputs for all EUTF common output indicators, and a few more indicators are likely to be added to better reflect the breadth of activities. By the end of 2018, the MLS will start aggregating the first project outcomes in order to measure the collective effects of the funded activities. In parallel, a number of macro-level indicators will be identified to start tracking changes at the regional level in the fields of migration and stabilisation, in order to analyse correlations with EUTF programming.

Ultimately the MLS should be used as **a strategic piloting tool** that can help EUTF management teams to better track efforts, allocate resources and realistically anticipate the amount of effort and time required to generate intended changes. Through a better integration of lessons from ongoing projects, the MLS will also aim to support more adaptive programming and help develop the next generations of migration and stabilisation programmes.

## APPENDIX – EUTF COMMON OUTPUT INDICATORS

Table 11: List of EUTF proxy / common output indicators<sup>32,33</sup>

EUTF COMMON OUTPUT INDICATORS			
1. Greater economic and employment opportunities		Definition	Optimal disaggregation
1.1	<b>Number of jobs created</b>	Number of jobs created with EUTF funds, irrespective of the workers' status (formal, informal), whether it is considered as their main or a secondary job (part-time /full-time). The figure includes short-term jobs (i.e. less than 1 year time) cash for work, long term employment, self-employment from IGA (or other EUTF support) and members of MSMEs supported or created with EUTF support.	<b>Gender; Age group; Location</b> <b>Target groups</b> (refugee, IDP, host community, returnee, migrant in transit) <b>Types of Job</b> (permanent, short term, cash for work, etc.)
1.2	<b>Number of MSMEs created or supported</b>	Number of micro and small enterprises which have been benefiting from EUTF support either through access to finance, Business Development Support, training, market access along the value-chain or provision of equipment.  For MSMEs (>2 and <250 people), individual members (of the MSMEs) are also counted in number of jobs created (1.1) if the jobs are indeed created.	<b>Type of support</b> (access to finance, business development, training, equipment, market access, etc.)
1.3	<b>Number of people assisted to develop economic income-generating activities</b>	Number of individuals benefiting from access to funding (loans or grants); business development services and/or having attended entrepreneurship and financial education awareness programmes.  Those who manage to set up a business with this support are counted either as self-employment insofar as a NEW job is created (1.1) or MSMEs created/supported (1.2).	<b>Gender; Age group; Location</b> <b>Target groups</b> (refugee, IDP, Host community, returnee, migrant in transit) <b>Types of support</b> (funding, finance education, entrepreneurship prog., etc.)
1.4	<b>Number of people benefiting from professional trainings (TVET) and / or skills development</b>	Number of individuals that have fully registered, attended and completed the TVET and/or skills development schemes (including life skills). This figure includes internships and apprenticeships.  Training (included TVET) related to entrepreneurship goes into 1.3, not 1.4.	<b>Gender; Age group; Location</b> <b>Target groups</b> (refugee, IDP, Host community, returnee, migrant in transit) <b>Age group</b> <b>Types of TVET</b> (professional training, skills dev scheme, internship, etc.)
1.5	<b>Number of job placements facilitated and / or supported</b>	Job placements facilitated through the payment of incentives, stipend payments, etc. Jobs supported with EUTF funds fit here.	<b>Gender; Age group; Location</b> <b>Target groups</b> (refugee, IDP, Host community, returnee, migrant in transit) <b>Types of Job</b> (permanent, short term, cash for work, incentive, etc.)
1.6	<b>Number of industrial parks and business infrastructure created, expanded or improved</b>	Number of industrial parks and business infrastructure that were created or developed, through activities such as building the facilities, facilitating financial investments, promoting eco-friendly regulations for the industrial parks and business infrastructure.	<b>Location</b>

<sup>32</sup> First set of 19 indicators and two following sets indicated in right-hand column (1,2,3)

<sup>33</sup> Detailed list of indicators with definitions and ideal level of disaggregation can be found in annex

1.7	<b>Financial volume of new funding instruments for scholarships or self-employment</b>	Financial volume in EUR by type of support (scholarships or self-employment).	<b>Location</b>
1.7 bis	<b>Financial volume granted to individual recipients</b>	Financial volume in EUR in total per country. This is a complementary indicator to 1.7.	<b>Gender; Location Age group</b>
<b>2. Strengthening resilience</b>		<b>Definition</b>	<b>Optimal disaggregation</b>
2.1	<b>Number of local development plans directly supported</b>	Number of policy documents, strategies and plans for local development which the EUTF has contributed to develop with local authorities, communities, grassroots organisations and civil society.	<b>Location</b>
2.1 bis	<b>Number of social infrastructure built or rehabilitated</b>	Number of social infrastructure built or rehabilitated.	<b>Use of infrastructure</b> (health, education, water, sanitation, housing, domestic energy, legal, etc.) <b>Location</b>
2.2	<b>Number of people receiving a basic social service</b>	Number of people (forcibly displaced, both refugees and IDPs, host communities and other vulnerable people / likely migrants) receiving basic service such as health (including psycho social support, sexual and reproductive health, GBV) water (potable), sanitation, basic education, housing, domestic energy and legal aid (excluding those include in 3.8, i.e. status determination)  Related to 2.9, which is about improved 'access' to better services, but 2.2 includes precise figures such as vaccination campaigns and actual beneficiaries of specific services. NB. If one beneficiary benefits from several different types of services, we will count the number of services, not the unique beneficiaries. Excludes targets from indicator 3.2.	<b>Gender; Age group; Location</b> <b>Target groups</b> (refugee, IDP, Host community, returnee, migrant in transit) <b>Types of Service</b> (health, education, water, sanitation, housing, energy, legal, nutrition, etc.)
2.3	<b>Number of people receiving nutrition assistance</b>	Number of people (forcibly displaced, both refugees and IDPs, host communities and other vulnerable people / likely migrants) benefiting from nutrition related treatment and / or sensitisation to improved nutritional practices.	<b>Gender; Age group; Location</b> <b>Target groups</b> (refugee, IDP, Host community, returnee, migrant in transit)
2.4	<b>Number of people receiving food security related assistance</b>	Number of people (forcibly displaced, both refugees and IDPs, host communities and other vulnerable people / likely migrants) whose livelihoods and food security have been supported through social protection schemes, technical training in agricultural practices, support to agricultural production, agricultural inputs (livestock farming and farming tools and seeds) land development (low lands, vegetable gardens etc.) and water points for livestock etc.	<b>Gender; Age group; Location</b> <b>Target groups</b> (refugee, IDP, Host community, returnee, migrant in transit) <b>Types of assistance</b> (social protection schemes, training on agri. practice, agri. inputs, land dev, etc.)
2.5	<b>Number of local governments and/or communities that adopt and implement local disaster risk reduction strategies</b>	Number of local governments and / or communities that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies. This includes the creation of early warning systems on natural disasters.	<b>Location</b>
2.6	<b>Hectares of land benefiting from improved agricultural management</b>	Hectares of land that have been rehabilitated, irrigated, or where better practices have been established.	<b>Types of support</b> (irrigation, rehabilitation, improved management, etc.) <b>Location</b>
2.7	<b>Number of people reached by information campaigns on resilience-building practices and basic rights</b>	Number of people (forcibly displaced both refugees and IDPs, returnees, migrants, host communities and other vulnerable people / likely migrants) reached by campaigns on resilience-building practices and basic rights: health (including sexual and reproductive health, SGBV), education, water, sanitation, domestic energy, rights (land tenure, housing, education rights etc.).	<b>Gender; Age group; Location</b> <b>Target groups</b> (refugee, IDP, Host community, returnee, migrant in transit) <b>Types of practices and rights</b> (health, education, water, energy, rights, etc.)
2.8	<b>Number of staff from local authorities and basic service providers benefiting from capacity building for</b>	Number of staff from local authorities and basic service providers benefiting from capacity building to strengthen service delivery, including teachers on education, extension workers on health, sanitation, agriculture or veterinary.	<b>Type of service</b> (health, education, etc.) <b>Location</b>

	<b>strengthening services delivery</b>		
2.9	<b>Number of people having improved access to basic services</b>	Number of people (forcibly displaced both refugees and IDPs, and their host communities or vulnerable people) receiving improved <u>access</u> to basic services such as health (including psycho social support, sexual and reproductive health, SGBV) water (potable), sanitation, basic education, housing, domestic energy and legal aid.	<b>Target groups</b> (refugee, IDP, Host community, returnee, migrant in transit) <b>Location</b>
<b>3. Improved migration management</b>		<b>Definition</b>	<b>Optimal disaggregation</b>
3.1	<b>Number of projects by diaspora members</b>	Number of projects and initiatives supported by the members of the diaspora (including development and investment activities, social and cultural projects) in their country of origin.	<b>Type of projects</b> <b>Location</b>
3.2	<b>Number of migrants in transit, victims of human trafficking, children in mobility, IDPs and refugees protected or assisted.</b>	Number of migrants in transit, victims of human trafficking, children in the mobility, IDPs and refugees protected or assisted who benefit from protection measures or direct assistance (medical and psycho-social assistance, shelter, food, legal assistance, etc.)	<b>Gender; Age group; Location</b> <b>Target groups</b> (refugee, IDP, returnee, migrant in transit) <b>Types of Protection</b> (protection measures, medical and psychosocial, shelter, food, legal, etc.)
3.3	<b>Number of migrants, or potential migrants, reached by information campaign on migration and risks linked to irregular migration</b>	Number of migrants and potential migrants who have been sensitised on the risks and dangers linked to irregular migration or the alternatives to it.	<b>Gender; Age group; Location</b> <b>Target groups</b> (refugee, IDP, returnee, migrant in transit)
3.4	<b>Number of voluntary returns or humanitarian repatriation supported</b>	Number of migrants who have been assisted by transportation means to return voluntarily to their country of origin. Additional measures such as pre-departure counselling, assistance to obtain travel documents, return ticket, travel escorts and direct/immediate assistance upon arrival also included.	<b>Gender; Age group; Location</b> <b>Types of assistance</b> (transportation, pre-departure counselling help to obtain documents, return tickets, travel escorts, assistance upon arrival, etc.)
3.5	<b>Number of returning migrants benefiting from reintegration assistance</b>	Number of returnees who have benefited from reintegration assistance. Reintegration assistance can be individual, collective or community-based.	<b>Gender; Age group; Location</b> <b>Types of assistance</b> (income generating, medical, education, housing support etc.)
3.6	<b>Number of institutions and non-state actors strengthened through capacity building or operational support on protection and migration management</b>	Number of regional, national and local government and non-state actors whose capacities on migration management have been strengthened through training, capacity building including direct operational support. This includes support to legislation on migration management and other long-term policies on migration management This does not include border management.	<b>Types of support</b> (capacity building, operational support, etc.) <b>Location</b>
3.7	<b>Number of individuals trained on migration management</b>	Number of individuals trained on migration management issues. Staff trained includes national and local officials, along with non-state actors. This does not include border management, which is considered more short-term and security related, and therefore goes into 4.1.	<b>Target groups</b> (state, non-state) <b>Location</b>
3.8	<b>Number of refugees and forcibly displaced persons receiving legal assistance to support their integration</b>	Number of asylum seekers who access refugee status determination (when facilitated thanks to EUTF activities) and number of refugees and forcibly displaced persons who gain access to the documents required to live outside the camps and integrate locally (e.g. birth certificates, work permits, driving licenses and other identity documents).	<b>Gender; Age group; Location</b> <b>Target groups</b> (refugee, IDP)
3.9	<b>Number of early warning systems on migration flows created</b>	Number of early warning systems developed to anticipate on massive flows of refugees and IDPs, their potential itinerary and destination, numbers, profiles and specific protection needs, for local governments and development actors to better plan for protection, services and infrastructures required	<b>Location</b>

3.10.	<b>Number of people benefiting from legal migration and mobility programmes</b>	Number of people benefiting from legal migration and mobility programmes. The nature of these programmes might vary (education, work, regional and international mobility, etc.)	<b>Gender</b> <b>Age group</b> <b>Location</b>
3.11	<b>Number of activities/events dedicated to raising awareness and sensitivity of public regarding migration</b>	Activities addressing public outside institutions (i.e. activities not part of capacity building for governmental and non-governmental stakeholders), such as media campaigns, etc.	<b>Types of activity</b> (media campaigns, etc.) <b>Location</b>
<b>4. Improved governance</b>		<b>Definition</b>	<b>Optimal disaggregation</b>
4.1	<b>Number of border stations supported to strengthen border control</b>	Number of border stations that have been built, renovated or equipped through EUTF support.	<b>Location</b>
4.2	<b>Number of <u>staff</u> from governmental institutions, internal security forces and relevant non-state actors trained on security, border management, CVE, conflict prevention, protection of civilian populations and human rights</b>	Number of officials trained on security, border management, CVE, conflict prevention, protection of civilian populations and human rights. Staff trained includes staff from: regional institutions, ministries, judges, justice actors, police (specialised and community), gendarmerie, national guards, other local authorities etc. Relevant non-state actors can include journalists, relevant NGOs, CSOs, and local group representatives (e.g. youth, refugees etc.)	<b>Gender</b> <b>Type of capacity building</b> <b>Location</b>
4.2 bis	<b>Number of <u>Institutions</u> and Non-State actors benefiting from capacity building and operational support on security, border management, CVE, conflict prevention, protection of civilian populations and human rights</b>	Number of national and local government and non-state actors whose capacities on security, border management, CVE, conflict prevention, protection of civilian population and human rights have been strengthened through training, capacity building or direct operational support.	<b>Type of capacity building</b> <b>Location</b>
4.3	<b>Number of people participating in conflict prevention and peace building activities</b>	Number of individuals from CSOs and communities involved in inter and intra community dialogue, civilian mediation and peacebuilding actions, fight against radicalisation as well as awareness raising activities on these topics.	<b>Gender; Age group; Location</b> <b>Target groups</b> (refugee, IDP, Host community, returnee, migrant in transit) <b>Types of Activities</b> (community dialogue, civilian mediation, peacebuilding, awareness raising, etc.)
4.4	<b>Number of victims of trafficking, assisted or referred to assistance services</b>	Number of victims of trafficking, whether minors or adults that have benefited from protection measures and assistance in the country of transit or destination and upon return in the country of origin. The victims of trafficking benefit from medical and psycho-social assistance and counselling, accommodation, legal counselling, family tracing, support to obtain travel documents, assistance to voluntary return and tailor-made reintegration based on their needs. Voluntary return will only be supported if all mechanisms of protection and assistance upon return are foreseen.	<b>Gender; Age group; Location</b> <b>Target groups</b> (refugee, IDP, Host community, returnee, migrant in transit) <b>Types of Services</b> (medical assistance, psycho-social assistance, counselling, accommodation, legal counselling, family tracking, travel docs, assistance to voluntary return, etc.)
4.5	<b>Number of cross-border cooperation initiatives created / launched or supported</b>	Coordination bodies or groups and learning mechanisms established between state institutions and / or non-state bodies (e.g. civil society organisations, community leaders) to enhance cross-border cooperation.	<b>Location</b>

4.6	<b>Number of strategies, policies and plans developed and / or directly supported</b>	Strategies, policies, frameworks, memoranda, development plans, agreements and SOPs that are developed thanks to technical assistance and / or coordination efforts funded under the EUTF. Early warning systems on conflict fit here, along with response plans for health or other emergencies (excluding natural disasters which goes in 2.5 and migration flows which goes in 3.9).	<b>Types of output</b> <b>Location</b>
4.7	<b>Number of refugees benefiting from an Out-of-Camp policy</b>	Number of refugees who benefit from an Out-of-Camp policy, including freedom of movement, access to public services and employment opportunities.	<b>Location</b>
4.8	<b>Number of national/regional/local networks and dialogues on migration related issues newly established or functionally enhanced</b>	Number of national/regional/local networks and dialogues on migration related issues newly established or functionally enhanced	<b>Location</b>
<b>CROSS-CUTTING</b>		<b>Definition</b>	<b>Optimal disaggregation</b>
5.1	<b>Number of multi-stakeholder groups and learning mechanisms formed and regularly gathering</b>	Number of coordination and learning platforms, committees and multi-stakeholder groups formed, meeting regularly and resulting in actionable conclusions (as reported bi-annually).	<b>Type of actors</b> (state-level, local authorities, civil society) <b>Goal of the group/platform</b> (coordination or learning) <b>Location</b>
