1.5. CHANGES AND CORRECTIONS

The tables below explain the differences in values reported in this report (S1 2021) and the previous EUTF MLS report (S2 2020). These changes and corrections are due to (i) indicator mapping revisions (when a project activity output and the associated data has been 'remapped' from one EUTF indicator to another), (ii) data corrections provided by the IP, (iii) data corrections made by the MLS team (for example, when unusual patterns are observed in a project's historical data and the IP is unable to provide an explanation in time for the report, the data points are temporarily removed from the database), (iv) a project providing 'new' historical data for a project that was not previously reported to the MLS and (v) newly included projects in the MLS providing historical data retroactively.

1.6. ONE PAGER PER INDICATOR

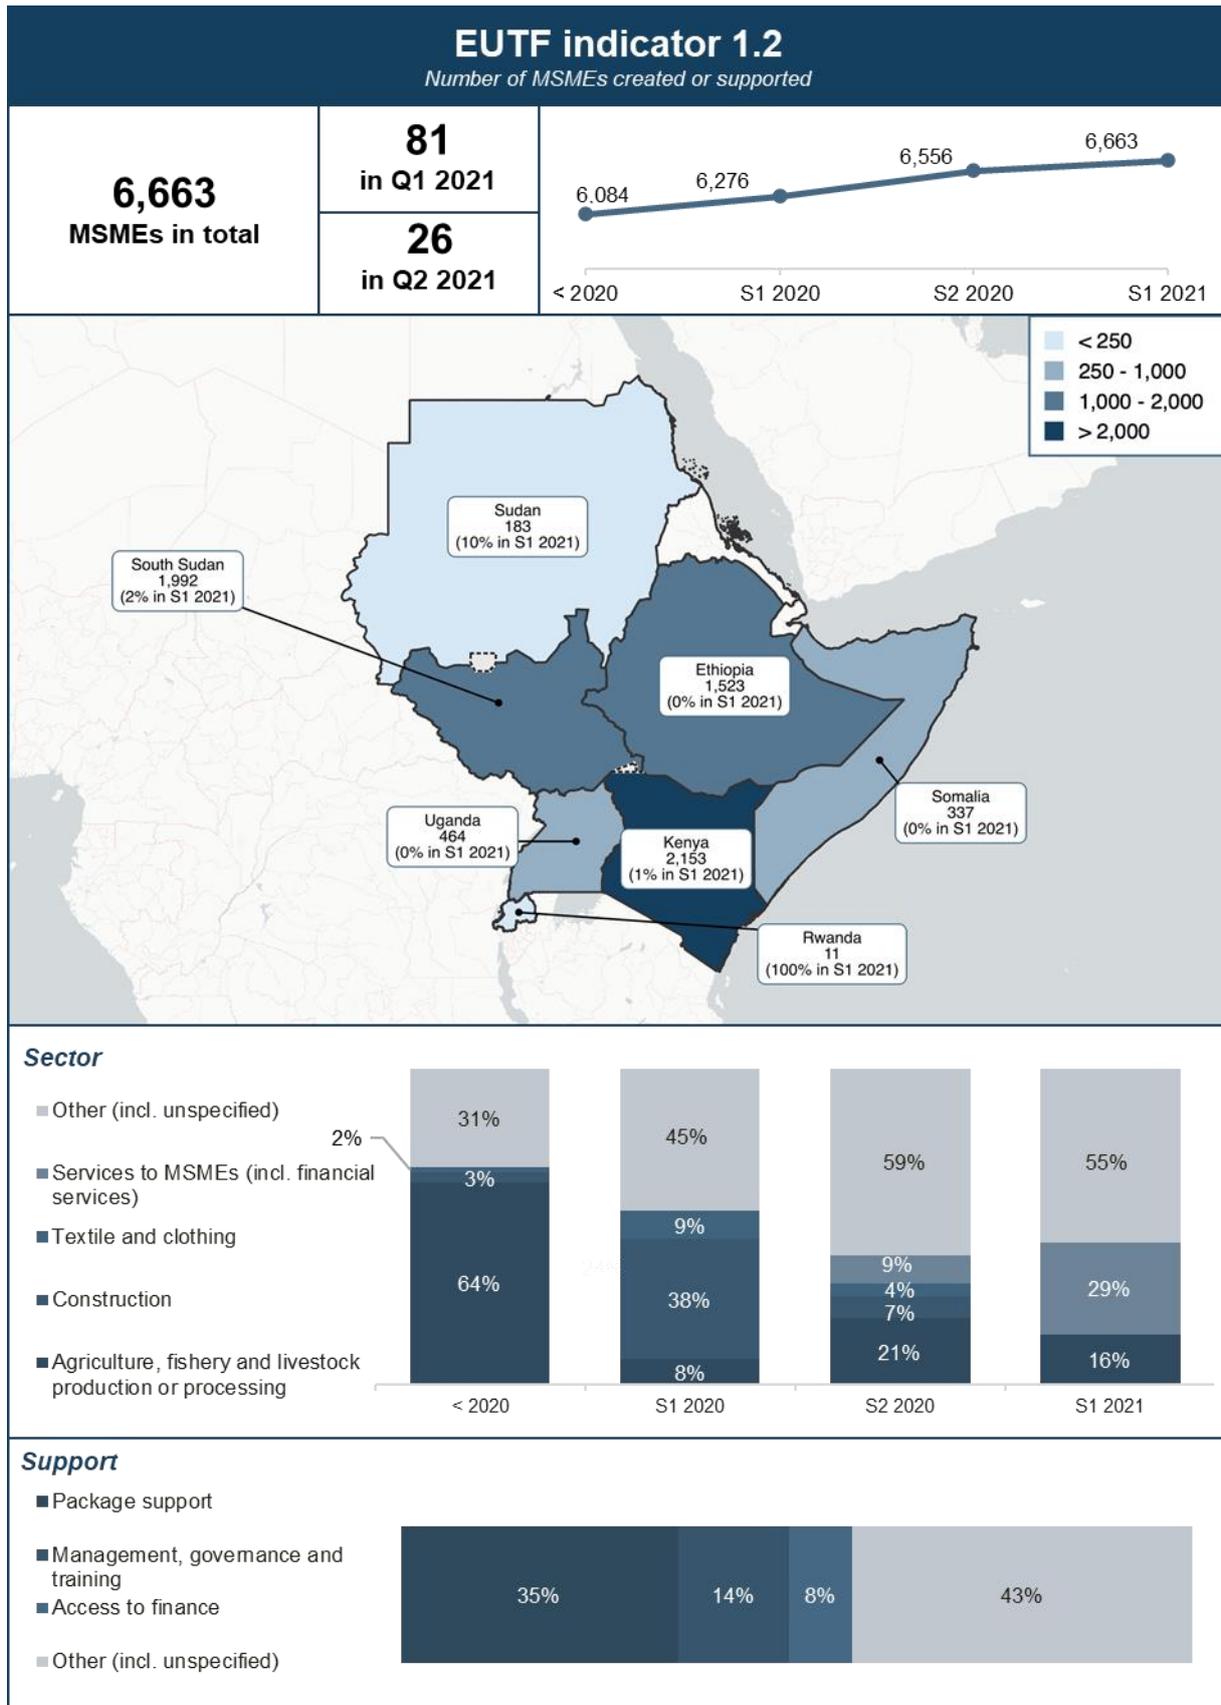

The data presented below is as of June 2021. Data from regional projects has been allocated to the respective country of delivery, leading to some differences between the numbers provided in the maps below and numbers reported in the country sections in the main report (which exclude Regional project data). When the values for each country do not add up to the overall indicator total in the upper left-hand corner, it is due to data reported with unspecified locations. In addition, the percentages in the vertical stacked bar graphs refer only to outputs reported within the specified period and therefore are not cumulative.
