SO4: Improved governance and conflict prevention and reduction of forced displacement and irregular migration

Implementation areas and key SO4 outputs as of June 2023

Horn of Africa States

Upper Nile State, South Sudan

45,026 people participating in conflict prevention activities (EUTF 4.3), 93% on gender and GBV-related topics, in a state where rising cases of GBV have been partly attributed by state authorities to conflict affecting the area.[i]

Khartoum State, Sudan

479 people trained on governance and conflict prevention (EUTF 4.2) in Khartoum, which has accounted for over 60% of reported violent incidents in Sudan since the crisis that erupted on 15 April 2023 between the Rapid Support Forces (RSF) and the Sudan Armed Forces (SAF).[ii]
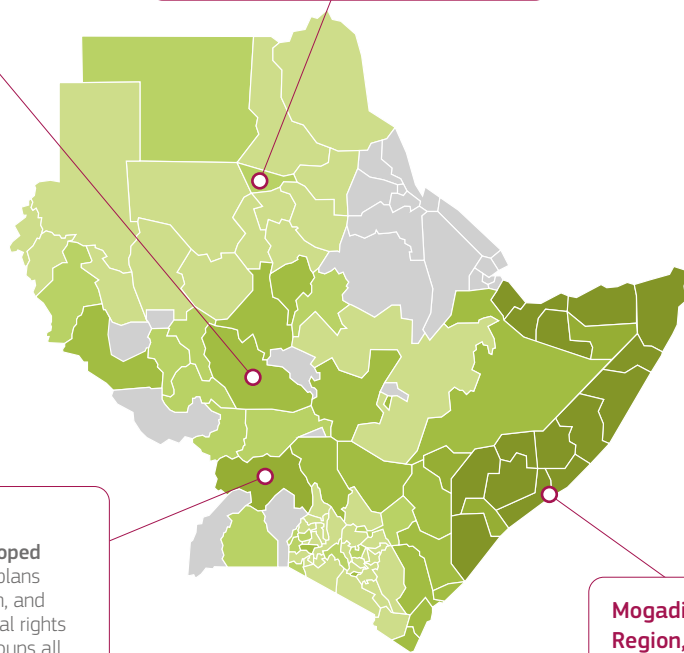

Northern Region, Uganda

36 strategies and laws developed (EUTF 4.6) comprising thirteen plans for education, conflict prevention, and health along with sixteen for legal rights of women and youth refugee groups all of which are aimed at increasing inclusion of refugees in service delivery, social cohesion and addressing the impacts of environmental degradation due to population pressure in the region.[iii]

Mogadishu, Banaadir Region, Somalia[2]

1,017 people trained on governance and conflict prevention (EUTF 4.2) in a region heavily affected by the Federal Government of Somalia's offensive against Al-Shabaab in early 2023.

SO4: Improved governance and conflict prevention and reduction of forced displacement and irregular migration
Key SO4 outputs

Non-cumulative EUTF SO4 outputs

People trained on governance and conflict prevention (EUTF 4.2)

People participating in conflict prevention activities (EUTF 4.3)

Strategies and laws developed (EUTF 4.6)

Increase in S1 2019 (8,584)

The Security and Rule of Law programme (Somalia), **SPRS-NU DRC** project (Uganda) and **Cross-Border** programme (regional), which contributed to 19%, 15% and 12% of all reported results respectively, implemented key conflict prevention activities in S1 2019.

Large drop in 2020 (S1: 3,173 and S2: 3,159)

The two smallest semester outputs were reported in 2020, as projects reached fewer people with governance and conflict prevention trainings during the COVID-19 pandemic, and one of the key contributing projects, **SPRS-NU DRC**, slowed down activities as it came to an end in September 2020.

Increase from S2 2020 to S2 2022 (10,865) followed by a significant drop in S1 2023 (2,392)

SUPREME JLOS MoJCA (Uganda) began implementation towards the end of 2021 and reached over 4,000 individuals, mostly comprising justice and ministry officials and community police officers. However, the project was unable to report data in S1 2023, which is partly why the latest semester output was the lowest to date.

Significant increase in S1 2020 (145,072) followed by a large drop in S2 2020 (17,833)

The first phase of the regional **Cross-Border** programme, together with **Self-reliance of South Sudanese refugees in the DRC** (regional), collectively reached 138,360 people in Q3 2020 alone. The associated projects reported much smaller numbers of participants the following semester, leading to a sharp drop in outputs.

Largest semester output reported to date in S2 2021 (505,796)

Kenya-EU partnership NCTC's mass awareness radio and online campaigns on conflict prevention and peacebuilding reached more than 400,000 Kenyans across the country in S2 2021 alone.

Renewed increase in S2 2022 (308,321) followed by a drop in S1 2023 (47,798)

Kenya-EU partnership NCTC reported the second-largest project output ever in S2 2022 before ending in December, resulting in a significant drop in outputs in S1 2023.

Increase in S2 2019 (127)

Throughout the EUTF, most strategies and laws have been reported in Somalia. **RESTORE 2 WV** (Somalia), responsible for 9% of all laws and strategies supported to date, began implementation in 2019 and, along with five other projects, contributed to 73 new strategies or plans developed on legal assistance and other topics in Somalia in S2 2019.

Largest semester output reported to date in S2 2021 (161)

The **Women Empowerment DORCAS** and **SSRD FAO** projects (South Sudan) collectively contributed 61% of reported results for the semester by supporting key strategies, laws and policies to strengthen natural resource management and women's rights.

Steady increase from S1 2022 (83) to S1 2023 (117)

After a decline in 2022, **LESP SLSP IFAD** (Sudan), Greater **Stability East SD FAO** (Sudan) and **SUPREME SPACE IRRI** (Uganda) made the largest contributions to an increased output in S1 2023 by collectively supporting 67 laws, strategies and SOPs related to managing animal disease outbreaks, food security and nutrition, and refugee advocacy (respectively).

SO4: Improved governance and conflict prevention and reduction of forced displacement and irregular migration

Abbreviations and acronyms

DRC	Danish Refugee Council
(the) DRC	Democratic Republic of the Congo
FAO	Food and Agriculture Organization
GBV	Gender-based violence

SNNP	Southern Nations, Nationalities, and People's Region (Ethiopia)
SPRS-NU	Support Programme for Refugee Settlements in the Northern Uganda
SSRD	South Sudan Rural Development
SUPREME	Security, Protection, and Economic Empowerment
WV	World Vision

Footnotes

1. Projects with SO4 priority have a larger budget allocation to SO4 than to any other Strategic Objective, per the MLS portfolio analysis.
2. The colours on the map represent the number of SO4 priority projects in each region. However, the key outputs selected highlight notable results achieved by EUTF projects, and do not always correlate with the number of projects present in a given area.
3. Geographical data disaggregation has not been possible for many Somalia projects, and as a result regional output data provided for Somalia is significantly underrepresented.
